Thomas Meyer (b. 1950) is a resident of Basel Switzerland, where he is fully engaged in Anthroposophical work as a freelance writer, publisher (see [www.perseus.ch](http://www.perseus.ch)), lecturer and teacher of Rudolf Steiner's legacy of Spiritual Science. Thomas publishes a monthly magazine *Der Europaer* which includes historical and current events seen from the light of an Anthroposophical world view. Thomas has written such monumental books as *D.N.Dunop, A Man Of Our Times*; and the truly amazing book *Light For The New Millenium*. These two books alone rank Thomas Meyer as an outstanding historian on the work of Rudolf Steiner. They are also highly educational for coming to an understanding of Rudolf Steiner as the greatest occultist of the twentieth century. People don't generally realize that in the two above mentioned books the daily life of Anthroposophy's founder comes into view in a way that cannot be experienced from any other source. Another book on Thomas's roster is *Reality,*

*Truth and Evil*, a collection of facts about the days in and around the destruction of the Twin Trade Towers in New York City on September 11<sup>th</sup> 2001. His book has been acclaimed by the 9 \ 11 Truth Organization for finding facts that no one else writing about these events found. Thomas has also written is a small book - *Clairvoyance and Consciousness* – on the difference between clairvoyance in ancient times and the clairvoyant consciousness that is attainable today. *The Bodhisattova Question – on Krishnamurti, Tomberg, the masters etc .* – was just reissued in an revised edition, including the lectures by Vreede on the subject. *The Death of Merlin* is a collection of writings by Walter Johannes Stein, one of the most creative spirits in Rudolf Steiner's closest entourage.
